And Much More

Visually appealing and fully furnished bedroom carries vow factors that are sure to catch the eye of anyone looking for a perfect blend of quality, aesthetics, and architectural masterpiece. Available in various finishes, this room comes with a thermally controlled environment through add-on airconditioner, roller blinds and highly efficient down lights not to mention beautifully designed ceiling.

This ergonomically designed 76 sqft kitchen space equipped with energy efficient add-ons appliances including a refrigerator, conventional stove and overhead cabinets provides enough storage for space savvy individual looking for modernism, well designed cabinetry and clever use of architectural dexterity providing enough room for dining table and chairs.

Fully modern lounge with dining area and kitchen gives a feeling of openness. The lounge comes with a wall mounted television add-on. L-shaped sofa set add-on gives added comfort and luxury being the hall mark of any modern home. Variety of floor options namely wood, vinyl and composite materials represent versatility, innovation and durability for everyday and lifetime use.

Carefully designed shower area, WC and the washing basin provides enough room for anyone that needs openness and contemporary artwork in the use of tiles and fixtures. A 38sqft bathroom includes enough space for a washing machine and a stacked-up dryer vertically without cluttering. The exhaust fan and the window provide light and air circulation.

AN EPITOME OF DESIGN AND SUSTAINABILITY

Our THEIII is specially designed for a family who prefer openness, quality, modernism, cost effectiveness, sustainability and privacy as their primary focus.

It can be extended as desired when the family size expands currently it provides a whopping 12ft X 45ft comfortable space incorporating all the features of a modern home. THEIII is prebuilt in a controlled factory environment and completed with all amenities including contemporary furniture (add on order), solar panels (add on order) and appliances. In addition to being highly cost effective, THEIII can be installed within a day with ready to move at the end of the day on a turnkey basis. One of the hallmark features of THEIII is its flexibility to order customized furniture and configuration for windows, doors, and elevation.
